# RAYNEX PHARMA IN BRIEF

## Pellets, Granules and Mups

Facility I: Boisar, Tarapur MIDC

### Key Features:

- Capacity & Expansion:** Current available capacity is 40 MT/month with an additional 70 MT under expansion, targeted for completion by January 2025.
- Regulatory Compliance:** Facility complies with WHO GMP, CIS, LATAM, and other ROW markets.
- Market Focus:** Strong potential in Bangladesh, Pakistan, Russia, Mexico, Sri Lanka, Egypt, and Iran.
- Facility Strengths:** Known for high-quality, system-oriented processes with end-to-end manufacturing (intermediates → API → pellets/granules in bulk), ensuring better cost control and quality assurance.
- Leadership & Expertise:** Along with the Promoters, Mr. Nishit Gupta and Miss Raina D. Desai, the company is lead by Mr. Milind Gadkari (44+ years in pellets & API; ex-Director Pellets, Pelletch Healthcare – EU GMP approved) and Mr. Mihir Patel (15+ years; ex-Murli Krishna), ensuring robust sourcing, quality, and operations management.

## API and Intermediaries

Facility II: Sykha | Gujarat

### Key Features:

- Facility & Capacity:** Equipped with 20 reactors (1 KL, 2 KL, 3 KL & 8 KL) including glass line reactors, SSR, GLR, plus a state-of-the-art QC lab and spacious infrastructure.
- Regulatory Compliance:** Certified for WHO GMP, CIS, LATAM, and all other ROW markets.
- Market Focus:** Strong potential in Bangladesh, Pakistan, Russia, Mexico, Sri Lanka, Egypt, and Iran.
- Current Operations:** Brand-new facility with experienced team; licensed to supply Omeprazole API and intermediaries (Hydroxy, Chloro, Sulphite).
- R&D & Pipeline Targets:** Rabeprazole and Domperidone successful at lab scale; commercialization expected by March 2025. Future pipeline includes Itraconazole, Lansoprazole, and Esomeprazole.

# PRODUCT PORTFOLIO

## Range of Pellets and Granules

We offer pellets and granules tailored to meet various industrial applications, ensuring high quality and reliability.

## Range of Pellets and Granules

We offer pellets and granules tailored to meet various industrial applications, ensuring high quality and reliability.

## Specialized Active Pharmaceutical Ingredients

Our expertise includes APIs like Ome, Panto, Fluco, Rabe, and Dome, advancing pharmaceutical solutions for diverse healthcare needs.

## High-Quality Intermediaries

## Quality Standards for Pellet Production

### Pellet Size Control

Maintaining uniform pellet size ensures consistent combustion and efficient energy output in pellet production.

### Moisture Content Regulation

Optimal moisture content improves pellet durability and combustion efficiency, preventing mold and degradation.

### Durability and Ash Content

High durability reduces pellet breakage during transport; low ash content ensures cleaner burning fuel.
